ECONOMICS CONCENTRATION

REQUIREMENTS

The prerequisites for enrolling in any economics courses (whether required or elective) are Introductory Microeconomics and Introductory Macroeconomics. Some of the concentration courses also require intermediate macroeconomics or statistics and econometrics. Students pursuing the concentration in Economics will need to demonstrate that they have taken these courses (at UNM or another institution).

Below are the courses that are offered most often for this concentration. Students should consult with the Associate Director to determine if other courses are available for the concentration in any given semester.

NOTE: All students in this concentration are required to take both ECON 421 and 423. These two courses are offered once each over a 4-semester period, so most students will have one opportunity to take each course over their two-year degree program.

- ECON 315* Money and Banking
- ECON 320* Labor Economics
- ECON 331* Economics of Poverty and Discrimination
- ECON 335* Health Economics
- ECON 343* Natural Resource Economics
- ECON 410* Topics in Health Economics
- ECON 421 Latin American Economics
- ECON 423 Topics in Latin American Development
- ECON 424* International Trade
- ECON 427* Topics in Labor Economics
- ECON 429* International Finance
- ECON 442* Topics in Environmental and Natural Resource Economics
- ECON 503* Economic Theory
- ECON 520* Labor Economics
- ECON 521* Comparative Labor Problems
- ECON 542* Environmental and Natural Resource Economics Survey
- ECON 584* Interdisciplinary Seminar on Problems of Modernization in Latin America

* these courses will require the student to consult with the instructor of the course and complete an LAS Course Content Form, which will then be submitted to the Associate Director for review. 300- and 400-level courses may require the submission of a “Green Card” to ensure graduate credit will be received.
