

**LLC SPEAKER SERIES:  
REVITALIZING INDIGENOUS LANGUAGES**

DR. ANTONIA CARCELÉN-ESTRADA

The UN Declaration on the Rights of Indigenous Peoples and the proclamation of the current International Decade of Indigenous Languages (2023-2032) have made their dent in making indigenous languages visible. **But these efforts do nothing to strengthen languages without the active design and implementation of projects by indigenous nations in their territories.**

As a comparatist, I use disciplines as tools that enable the translation of epistemologies and meanings according to the demands of each world contained in a language, always hoping to have an impact by strengthening it in whatever shape or form. I want to share some of these experiences in my own decolonial work.
