Genius you can’t Refuse

RECOVERING THE STORY AND MUSIC OF MANUEL AREU (1845-1942)

From a dumpster in Jerome, Arizona to UNM Zimmerman library’s collections the music scores and documents of Manuel Areu tell us about his creative work in Spain, Cuba, Mexico, and the United States in times of important social and political change. This rare treasure is now part of our heritage. UNM Honors College students and faculty are recovering this historical and musical legacy.
