EXHIBIT ON DISPLAY

July 19 to December 31, 2019

History and Literary Arts Building

Camina el Autor showcases the extraordinary work of Guaman Poma; explores the history of the indigenous people of Peru, Andean civilization, and Spanish conquest; and broadens our understanding of Peruvian culture and history. The digital images and accompanying texts have been provided to the NHCC by the Peruvian Ministry of Foreign Affairs, with assistance from the Consulate General of Peru in Denver. The NHCC has curated these (398 full-page drawings) to present a vibrant and informative exhibit that encourages learning, discovery, and contemplation.

Exhibit programming will include talks and lectures; book readings; graphic novel, zine, and animation workshops for teens; bilingual story hours; and more.
